INDEX OF VOLUME 12, 1974

The papers which appeared in Volume 12, 1974 are listed below in order of publication from the January-February issue through the November-December issue. Authors' names and page numbers are provided.

NUMBER 1, JANUARY–FEBRUARY 1974

The Hedging Syndrome, by Ralph H. King, pp. 2-3.

Effects of Well Injection on a Basaltic Ghyben-Herzberg Aquifer, by D. R. Hargis and F. L. Peterson, pp. 4-9.

Tube Wells, Open Wells, and Optimum Ground-Water Resource Development, by William H. Walker, pp. 10-15.

Water Quality Cycle–Reflection of Activities of Nature and Man, by Ahmad Amin Hassan, pp. 16-21.

Water-Management Studies of a Stream-Aquifer System, Arkansas River Valley, Colorado, by O. J. Taylor and R. R. Luckey, pp. 22-38.

NUMBER 2, MARCH–APRIL 1974

Unseen and Unheard, by Jay H. Lehr, pp. 70-71.

The Hydrogeology and Utilization of Brines in El Salado, Chile, by John W. Lloyd, pp. 72-77.

Exploration for a Buried Valley by Resistivity and Thermal Probe Surveys, by Edgar M. Smith, pp. 78-83.

Geohydrology of the Buried Triassic Basin at the Savannah River Plant, by I. Wendell Marine, pp. 84-96.

Ground-Water Quality Models: What They Can and Cannot Do, by D. E. Evenson, G. T. Orlob, and T. Clark Lyons, pp. 97-101.

NUMBER 3, MAY–JUNE 1974

A Regional Approach, by Michael D. Curry, p. 134.

Some Aspects of Approximating Aquifer Discharge, by David L. Gundlach, pp. 135-139.

Design and Operation of Land Treatment Systems for Minimum Contamination of Ground Water, by Herman Bouwer, pp. 140-147.

Hydrogeology Is More Than a Classical Science, by D. Stephenson, pp. 148-151.

Artificial Recharge–State of the Art, by R. F. Brown and D. C. Signor, pp. 152-160.

Protracted Recharge of Treated Sewage into Sand: Part 1–Quality Changes in Vertical Transport Through the Sand, by D. B. Aulenbach, T. P. Glavin, and J.A.R. Rojas, pp. 161-169.

Bore Hole Sampling of Saturated Uncemented Sands and Gravels, by C. M. Barton, pp. 170-181.

NUMBER 4, JULY–AUGUST 1974

NWWA Technical Division 25 Years Later, by R. W. Davis, pp. 198-201.

Pipe Flow Models of a Kentucky Limestone Aquifer, by John Thrailkill, pp. 202-205.

Total Dissolved Solids in Ground Water of the Wainwright Area, Alberta, by D. A. Hackbarth, pp. 206-212.

Monitoring Toxic Chemical Pollution from Land Disposal Sites in Humid Regions, by William H. Walker, pp. 213-218.

Protracted Recharge of Treated Sewage into Sand: Part II–Tracing the Flow of Contaminated Ground Water with a Resistivity Survey, by W. B. Fink, Jr. and D. B. Aulenbach, pp. 219-223.

NUMBER 5, SEPTEMBER–OCTOBER 1974

Our Buried Resource–May It Rest in Peace, by William H. Walker, pp. 262-264.

Aquifer Tests in Large-Diameter Wells in India, by Edward A. Sammel, pp. 265-272.

Tests of a Ground-Water Optimization Technique, by K. A. Remson, E. Aguado, and I. Remson, pp. 273-276.

The Future of Ground-Water Resources in Dupage County, by Robert T. Sasman, pp. 277-282.

Dissolved Organic Carbon (DOC), an Index of Organic Contamination in Ground Water Near Barstow, California, by J. L. Hughes, L. A. Eccles, and R. L. Malcolm, pp. 283-290.

Orthophosphate in Ground Water, Hall County, Nebraska, by Jon C. Atkinson, pp. 291-295.

Ground-Water Modelling Using Interactive Analogue and Digital Computers, by K. R. Rushton and J. E. Ash, pp. 296-300.

Protracted Recharge of Treated Sewage into Sand: Part III–Nutrient Transport Through the Sand, by D. B. Aulenbach, J. J. Ferris, N. L. Clesceri and T. J. Tofflemire, pp. 301-309.

Analysis of Shallow Hard Rock Well Pumping and Recovery Test Data, by Narimantas T. Zdankus, pp. 310-317.

NUMBER 6, NOVEMBER–DECEMBER 1974

Ground Water and Politics, by Jay H. Lehr, pp. 330-331.

C. L. McGuinness–Hydrogeologist, Writer, Teacher, by Gerald Meyer, pp. 332-334.

New Priorities for Ground-Water Quality Protection, by D. W. Miller and M. R. Scalf, pp. 335-347.

Rational Basis for Septic Tank System Design, by R. Laak, K. A. Healy, and D. M. Hardisty, pp. 348-352.

Effects of Septic Tank Effluent on Ground-Water Quality, Dade County, Florida: An Interim Report, by William A. J. Pitt, Jr.

Subsurface Sewage Disposal and Contamination of Ground Water in East Portland, Oregon, by E. L. Quan, H. R. Sweet, and J. R. Illian, pp. 356-368.

Sampling of Variable, Waste-Migration Patterns in Ground Water, by K. E. Childs, S. B. Upchurch, and B. Ellis, pp. 369-377.

Will Current Research Answer Today's Problems at the Sanitary Landfill? by J. C. Warman, R. K. Rainer, and A. S. Chipley, pp. 378-387.

Leachate Plumes in a Highly Permeable Aquifer, by G. E. Kimmel and O. C. Braids, pp. 388-393.

Transpiration Drying of Sanitary Landfills, by F. J. Mölz, S. R. Van Fleet, and V. D. Browning, pp. 394-398.

Ground-Water Quality Modeling, by L. W. Gelhar and J. L. Wilson, pp. 399-408.

Uniform Distribution in Soil Absorption Fields, by R. J. Otis, J. Bouma, and W. G. Walker, pp. 409-417.

Waste Surveillance in Subsurface Disposal Projects, by Raphael Kazmann, pp. 418-426.

Hydrocarbon Dispersion in Ground Water: Significance and Characteristics, by John O. Osgood, pp. 427-438.

Bull Session–Operation and Maintenance of Domestic Waste Disposal Systems Discharging into Ground Waters, pp. 439-457.
